

## AMATRON 30W LED GARAGE LAMPS

AMATRON 30W LED GARAGE LAMP WITH E26 BASE

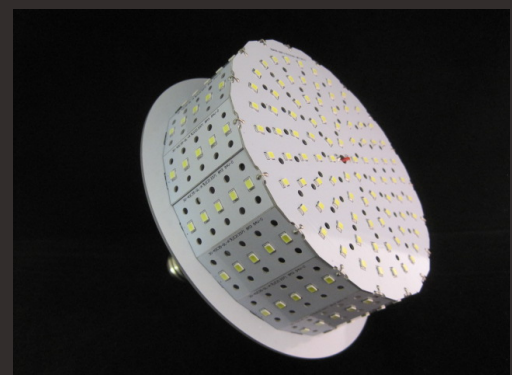

AMATRON 30W LED Garage Lamps lower energy costs by at least 75% compared to conventional high intensity lighting. Our bulbs burn very brightly and disperse light over a 360 degree range.

LED Garage Lamps are ideal as direct retrofits in parking garage fixtures or other lighting fixtures where a short profile LED retrofit lamp is required.

These high intensity LEDs emit no heat and keep A/C costs down. Their long life reduce maintenance costs in hard-to-reach areas and do not require ballasts.

Our lamps are available to both consumer and commercial buyers.

- Energy Efficient
- High Intensity
- Long Lasting
- No Flickering
- Zero Warm-Up Time
- No Ballast Needed

# AMATRON 30W LED GARAGE LAMPS

## FEATURES

- Instant On/Off. No flickering or cold start issues.
- Longer life reduces maintenance costs in hard to reach areas.
- Eco friendly. Contains no mercury or lead.
- Energy efficient. Uses 70-90% less energy than traditional HID and CFL lights.
- No heat from light source. Requires less air conditioning.
- High CRI with great directionality.

## MODELS

Model No.	Power	Voltage	Base	Kelvin	Lumens	Dia x Length
AM-30WGLK5	30W	100-300VAC	E26 or E39	5500K	3,900 lm	6.5" x 5.5"
AM-30WGLK4	30W	100-300VAC	E26 or E39	4100K	3,850 lm	6.5" x 5.5"

## SPECS

EFFICACY	127 lm/W
BEAM ANGLE	360°
POWER FACTOR	0.98
FREQUENCY RANGE	50-60Hz
OPERATING TEMP	-40°F ~ 113°F
CRI	>72
INPUT CURRENT	0.26A
WARRANTY	3 Years

***\*Do not use with ballasts.***

***\*Not for use with dimmers.***
